each man must remake for himself, is more precious in proportion as it costs more dear. Illumined by its light, he makes a moral advance more and more sure. Now he has his means of orientation, his internal norm to which he may lead everything back, and from the vacillating, confused and complex being that he was he becomes simple. By the ceaseless influence of this same law, which expands within him and is day by day verified in fact, his opinions and habits become transformed.

Once captivated by the beauty and sobriety of the true life, by what is sacred and pathetic in this strife of humanity for truth, justice and brotherly love, his heart holds the fascination of it. Gradually everything subordinates itself to this powerful and persistent charm. The necessary hierarchy of powers is organized within him; the essential commands, the secondary obeys, and order is born of simplicity. We may compare this organization of the interior life to that of an army. An army is strong by its discipline, and its discipline consists in respect of the inferior for the superior and the concentration of all its energies toward a single end. Discipline once relaxed, the army suffers. It will not do to let the corporal command the general. Examine carefully your life and the lives of others. Whenever something hinders or jars and complications and disorder follow it is because the corporal has issued orders to the general. Where the natural law rules in the heart disorder vanishes.

I despair of ever describing simplicity in any worthy fashion. All the strength of the world and all its beauty, all true joy, everything that consoles, that feeds hope or throws a ray of light along our dark paths, everything that makes us see across our poor lives a splendid goal and a boundless future, comes to us from people of simplicity, those who have made another object of their desires than the passing satisfaction of selfishness and vanity and have understood that the art of living is to know how to give one's life.

## WAR'S BITTERNESS

Is Exhibited in the Attitude of Opposing Forces in Trenches.

Mukden, Dec. 30.—Cossacks have brought in the body of Captain Eridaroff, a noted scout, who was killed in an attack on the village of Tifany.

Intense hatred exists between some of the opposing forces in trenches close together, notwithstanding the friendly terms existing at other parts on the fronts of the two armies. The Japanese try to heat their shelters at advanced positions with charcoal fires concealed in small braziers, so as to show no light. One of these recently was broken and the fire exposed the position of the Japanese. The whole party were immediately wiped out by a furious Russian fire.

There was a sharp skirmish on Dec. 28 at Sinochun. A concealed mortar battery inside the Russian lines opened on the Japanese position, driving out a number of the Japanese, who sought refuge among the trees and bushes. A shell exploded a Japanese mine in front of the trenches, inflicting considerable damage.

## One Thousand Casualties.

Headquarters of the Japanese Army before Port Arthur, via Fusan, Dec. 30.—After months of fighting, sapping and mining the Japanese forces finally occupied Ribbing fort. The position was captured with a thousand casualties. Seven dynamite mines exploded, making breaches in the front wall through which a large body of Japanese troops charged under cover of a tremendous bombardment, and captured the first line of light guns. A bitter fight resulted in the capture of the fort. The garrison, numbering 500 men, escaped.

## Chaplain Drops Dead at Funeral.

Danville, Ill., Dec. 30.—The Rev. M. Auer, chaplain of the soldiers' home, this city, dropped dead while officiating at a funeral at Rossville.

## ROBERT DALE OWEN

Proper Revival of Interest  
In This Distinctive Indiana Personage.

## COMING INTO ITS OWN

Present Interest in the Owen Family  
Is Evidence of the Public's  
Fervid Appreciation.

Movement to Place Owen's Statue in  
Memorial Hall Is Gaining  
Large Headway.

Indianapolis, Dec. 30.—Several circumstances have combined to bring about in Indiana what might be termed an Owen revival. There is more interest in the members of the remarkable family which flourished in Indiana three-quarters of a century ago than at any time for years, and the people of the state are just awakening to the importance of their contributions to the institutional and educational development of the state. The Indiana Federation of Women's Clubs is raising a fund to be used in placing a bust of Robert Dale Owen in the state capitol—this in recognition of his services in the constitutional convention of the state a half century ago by way of establishing in the laws of Indiana the modern conception of the legal rights of women. Representative Hemenway has repeatedly introduced in the house a resolution providing for a statue of Owen in the grounds of the Smithsonian Institution, of which he was the legislative father. It was Robert Dale Owen, then a member of congress from Indiana, who framed the measure providing for the application of the neglected Smithsonian bequest, and he was president of the institution's first board of regents. Considerable sentiment has been aroused in favor of placing the statue of Robert Dale Owen beside that of Oliver P. Morton in Statuary Hall at Washington, as the overshadowing figure in the history of the state prior to the Civil war. The teachers of the state have selected for reading in the required course for next year a book bearing on the influence of the Owens and their associates upon the institutional development of Indiana. Robert Dale Owen framed the common school law of Indiana and the law providing for the establishment of the township institutes. The first kindergarten, the first manual training school and the first agricultural school in the United States were conducted at New Harmony three-quarters of a century ago under the patronage of the Owens. This remarkable family has been a long time coming into its own, but the present interest in them is evidence that appreciation of great public service usually develops, even if a little late, as in this case.

## MORE PAY WANTED

Indiana Teachers Have Looked Into  
Question of Salaries.

Indianapolis, Dec. 30.—The most important work before the Indiana State Teachers' Association came in connection with the report of the committee on taxation and salaries, representing a year of work. The report went into the whole question exhaustively and was gathered from school officers and teachers all over Indiana.

It is said there were 16,256 teachers in Indiana on July 31 this year. In townships the daily average pay for men teachers was \$2.57, for women \$2.37; in towns, for men \$3.45, women \$2.59; in cities, men \$4.52, women \$2.75. In 1903 the yearly average pay was \$381.65. In 1904 the average was \$420.32. The average pay for high school teachers in 1904 was \$684.81, or less than the rural mail carriers receive.

County superintendents get about \$1,252 a year, or \$4.00 a day. This is one-third to one-half what county auditors, clerks, treasurers and sheriffs receive. The committee found that the average pay of a city school superintendent is \$1,522.90, nearly \$800 less than is paid the average postmaster. There are 12,035 teachers who get less than \$500. The committee found that 1,058 school corporations in the state can pay higher salaries than they have been paying and says that it is evident that salaries can be greatly increased in most parts of the state without making changes in the laws.

The committee says that teachers should be paid enough to live in comfort, to educate their children and to provide a fund for old age.

## Roof Burned Over Them.

Walton, Ind., Dec. 30.—The home of Mrs. Susan Scott, eight miles southwest of this place, burned. The roof was almost ready to fall in before the occupants were awakened. Mrs. Scott's four sons and a granddaughter were asleep in the building. All of them escaped, but with the exception of one son, all were severely burned.

## Brothers in Murderous Fight.

New Castle, Ind., Dec. 30.—As a result of a murderous fight between Laban and Cash Shuck, brothers, at New Lisbon, six miles south of this city, Cash Shuck is in a serious condition, and a warrant has been issued for the arrest of Laban. They became involved in a quarrel over a trivial matter.

## KEEPING IT QUIET

Little Known Regarding Makeup of  
Legislative Committees.

Indianapolis, Dec. 30.—Lieutenant Governor-elect Miller and Speaker-to-be Cantwell will open headquarters here Monday morning. They will probably be located at the Hotel English. Both are engaged in making up their committees, but they have developed a marked ability to keep their affairs in this line from the public and even from the members. It is understood that Miller has been working on his committees for some time and that Cantwell also has done considerable work, although he has been very modest, inasmuch as he is not yet elected speaker, although he has no opposition. It is generally remarked that both branches of the legislature will be presided over by fair-minded men, which is encouraging to both parties. The Republicans are in position to do as they please, but it is regarded as likely that Miller and Cantwell will rule impartially. No announcement of the makeup of the committees will be made until after the inauguration.

The Republican members of the legislature will caucus next Wednesday night to organize for the session. It is also probable that the Democrats will meet at the same time. The Republican senators will more than likely elect Senator Fremont Goodwine of Williamsport caucus chairman; Senator E. E. Hendee, Anderson, president pro tem; Julian D. Hogate, Danville, principal secretary; Charles Gray of South Bend, assistant. The members of the house will elect Sidney Cantwell of Hartford City. It is not known who will secure the clerical positions further than that it is likely that Charles Hurst of Indianapolis will be elected chief clerk. As a result of the law enacted last session providing that bills shall be engrossed in a special type by the state printer, there will not be so many jobs as usual to distribute, which is discouraging information to the members who are being sorely pressed for appointments. The "plunder committee" of the senate consists of Senators Lyons of Fairmount, Kittinger of Anderson, Farber of Frankfort. This committee will probably have a meeting here the first of the week to pro rate the positions on their side of the legislative chambers.

One of the legislative visitors here today was Warren G. Sayre of Washburn, and there was much curiosity to see what he would have to say regarding the coming session. He created considerable surprise among the newspaper men by stating that he has not secured a seat for the session. It was thought that he might have his old place at the front, where he was such a conspicuous and powerful figure two years ago. It is presumed that he will be reappointed chairman of the ways and means committee and that he will again become the watchdog of the treasury, as he was called two years ago, but he had nothing to say as to what he expects to do regarding the bills for appropriations. He volunteered the information, however, that he will have no bills to introduce on any subject, which will give him an unbroken record, as during his long legislative experience he has never prepared or introduced a measure.

Any attempt to increase the state tax levy for the general fund will be met by strong opposition on the part of many of the leading Republican members of the legislature, although it is now realized that there is not enough money in the treasury or revenue in sight for 1905 to meet the appropriations for necessary improvements that will be demanded during the coming session. While it is attempting to lift the veil of the future in making predictions as to what the legislature will do, it is very probable that there will be no increase in the tax levy.

## Violated Court's Injunction.

Indianapolis, Dec. 30.—For contempt of the federal court, three of the striking employees of the Macbeth-Evans Glass company of Elwood, were sentenced to jail by Judge A. B. Anderson, and eight others were sentenced to pay fines ranging from \$50 to \$25. They had been found guilty of violating an injunction issued by Judge Anderson Oct. 8, restraining them from acts of intimidation or violence toward the men that have been hired to take their places at the Macbeth-Evans company's plant.

## Took a Cruel Revenge.

Chicago, Dec. 30.—Evidence said to connect Stephen Gorrick with drenching seven horses with kerosene oil and setting fire to them and the barn they were in has been discovered by Fire Department Attorney Johnson. As a result Gorrick is under arrest. The horses belonged to Mrs. Mary Dooley, a widow. Desire for revenge is given by the investigators as the motive for the act. Gorrick formerly lived at Mrs. Dooley's house, and is said by Johnson to have been ejected by her.

## Aged Woman Cremated.

Portland, Ind., Dec. 30.—Mrs. Margaret Duer, nearly ninety years old, was cremated in her own home near New Corydon. It is supposed that she was starting a fire with coal oil, and in this way her clothing was ignited.

Skull Crushed by Horse's Hoof.  
Washington, Ind., Dec. 30.—Douglas Huls was kicked by a horse, the animal's hoofs striking him in the forehead and crushing his skull.

The United States gunboat Wasp while proceeding down the harbor at Kingston, Jamaica, grounded on a mud bank.

## SCANDAL GROWING

Presenters in the Talbot-Irvine Case Deny Their  
Signatures.

## A NEW COMPLICATION

Some of the Huntingdon Signers  
Have Repudiated the Present-  
ment Over Their Names.

They Say It Was Never Their Inten-  
tion to Sign Such a Paper As  
Has Been Given Out.

Philadelphia, Dec. 30.—Dispatches from Huntingdon, Pa., state that some of the Huntingdon signers to the presentment in the Talbot-Irvine case have repudiated the presentment, and say that it was never their intention to sign a paper of the character that has appeared in the press. If this be true the proceedings must be dropped, as a presentment of the character made against Bishop Talbot must contain the names of at least three persons from the diocese in which the accused bishop lives.

It is said the paper was signed by the Huntingdon men under a misapprehension, they believing that they were assisting in closing a long controversy, and not one in which their bishop was to be brought to trial.

When J. Frederick Jenkinson was told of the information received from Huntingdon he said that the names of the Huntingdon men were signed at the end of the original presentment. The names of Philadelphia signers, he said, were on the same sheet upon which the names of the Huntingdon presenters appeared. He added that he has a personal letter from one of the signers in which he says he was pleased to attach his name to the document.

A dispatch from Huntingdon quotes John Langdon, one of the signers, as follows: "I did not know until this morning that my name was connected with the charges. It is an outrage, for I did not know anything about the matter except what I heard. I have never read the presentment and could not tell one of the charges or specifications."

"The matter was entirely misrepresented to me. It is true that I signed a paper, but that was a communication to Bishop Tuttle signed by all the vestrymen, asking that the controversy between Bishop Talbot and Dr. Irvine be settled for all time. The communication contained about twenty words. It was brought to me by W. G. Miller, one of the signers, and as the others had signed it, I did. Mr. Miller also gave me a blank sheet to sign, saying he wanted to make the letter out in duplicate. What was done with that blank sheet I don't know. Mr. Miller was always very friendly with Dr. Irvine and so was James Denton, another signer. I can't say positively, however, that they had any communication with Dr. Irvine on this subject. Still, I can't understand why my name is attached to the presentment."

"I have absolutely nothing against Bishop Talbot, and if he were to come here tomorrow I would entertain him as I have before. I am not defending either man."

## City's Contentment Sustained.

Chicago, Dec. 30.—To a day on the anniversary of the Iroquois fire, Judge Charles M. Walker decided that the city of Chicago is not liable for damages growing out of the loss of life in connection with the famous theater fire. On all points considered, Judge Walker declares the city's position in opposing the litigation in sixty suits in which it is party defendant is well taken. He sustained the city's demurrer in two of the suits at the bar. One of the cases will be taken to the appellate court for final decision.

## Odell Is Convinced.

New York, Dec. 30.—A statement in relation to the United States senatorship given out at Republican state headquarters by Governor Odell, concludes that: "As chairman of the Republican state committee of New York, after a long series of inquiries extending all over the state, I have reached the conclusion that party harmony will be best subserved by the re-election of Senator Depew."

## Checked Coal Movement.

Pittsburg, Dec. 30.—The channel of the Ohio river was completely blocked and all coal shipments stopped after 5 o'clock yesterday afternoon by an accident to the tow of the Crescent of the People's Coal company, which sank four coal-boats containing 100,000 bushels of coal at Merriman. The wreckage is being dewatered and shipments will be resumed today.

## Another Suicide Pact.

New York, Dec. 30.—The bodies of two men who had registered as George Weber and George Brown and who, the police say, had evidently committed suicide together, were found in a room in a Bowery lodging house. Both men were about thirty-two years old.

## COLORADO'S POLITICS

Caucus Will Soon Determine the  
Gubernatorial Question.

Denver, Col., Dec. 30.—Very few members of the legislature have yet arrived in the city, and whether the plans of William G. Evans and other Republican leaders to reseat Governor James Peabody will be adopted by a majority of the Republican members is still undecided. The Republicans have an even two-thirds of the votes on joint ballot, and can carry any measure on which they are united. A Republican caucus probably will be held next Monday at which the contest for the speakership of the house and the plan to continue Governor Peabody in office will be considered. There are at least half a dozen candidates for the speakership.

Some Republican members known as followers of former United States Senator Edward O. Wolcott have declared that while they do not contemplate a union with the Democrats under any consideration, they will oppose vigorously any plan for counting out Adams. The plan to seat Governor Peabody, some of them declared, is wrong and no caucus action will bring them to support such action. The canvass of the votes for state officers is made by the legislature and is not subject to review in the courts.

## CAN'T ACCOUNT FOR IT

Russian Member of Dogger Bank Com-  
mission Recalled.

Paris, Dec. 30.—The members of the international commission on the North sea incident were surprised to hear that Admiral Kaznakoff, the Russian member, had been recalled, as no intimation that a change was contemplated had been communicated to the commission. The dispatch from St. Petersburg announcing the change was laid before Admiral Kaznakoff with a request for a statement. The admiral declined to discuss the matter. The members of his suite also refused to discuss the subject.

The retirement of Admiral Kaznakoff causes much comment here. It is conjectured that it is due to renewed naval activity in Russia in connection with the possible dispatch of a third squadron to the far East, as Kaznakoff ranks as a full admiral and therefore has seniority over Skrydloff and Rojostevsky, commanders of the first and second Pacific squadrons. It is also suggested that Great Britain and other governments having sent vice or rear admirals to sit on the commission, Russia deems it not necessary that she should be represented by an officer of the highest rank. Vice Admiral Doubassoff replaces Admiral Kaznakoff.

## Important Question Evaded.

Chicago, Dec. 30.—Assertions that witnesses were evading questions and were refusing to tell all they knew and that an attempt had been made to deceive the interstate commerce commission as to the rate on coal shipments in the West, were made in the hearing of two cases before Commissioners Yeomans and Prouty.

## Killed His Mother-in-Law.

Thomasville, Ga., Dec. 30.—After killing his mother-in-law, Mrs. W. M. Parish, making a desperate attempt to kill his eighteen-year-old wife, and shooting himself twice with a Winchester rifle, J. B. Barrow is lying in the city hospital in a precarious condition. Domestic infelicity is given as the cause of the tragedy.

## Crew Got Off Safely.

Baltimore, Dec. 30.—A stranded vessel on Diamond Shoals, N. C., proves to be the American steamer North-western, bound from Port Arthur, Tex., to Philadelphia with a cargo of crude oil. The crew of twenty-two men were all saved in surf-boats by life-savers. The vessel is thought to be a total loss.

## It Must Come.

As inevitable as the changing seasons of the year is the change which comes to every woman. And just as one anticipates the changes of other seasons it is wise to anticipate this change of season and prepare for it. The way of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Profluvium, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Dr. Pierce's Favorite Prescription, a medicine for every season of woman's life, will entirely meet the needs of women at this period of change. It cures the physical ills and relieves the mental anxiety and depression. It is associated with this critical period. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

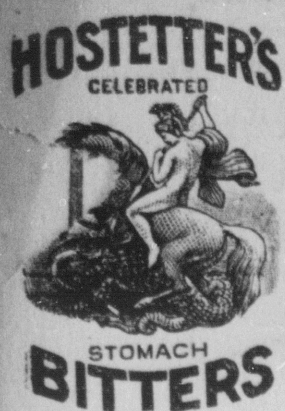

**\$500 REWARD!**  
FOR WOMEN

## WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained. I have been your doctor for years. Your 'Favorite Prescription' 'Golden Medical Discovery' and 'Pain-Expeller' are the best medicines for the diseases for which they are recommended. That I ever used. They saved my wife's life at the time of 'change of life.' I have been recommending your medicine to many afflicted women and have also guaranteed that if it did not cure I would pay back the money spent for it. I have told our druggist that if the people came back and said Doctor Pierce's medicines did not give satisfaction, to give them back their money and charge it to me. I have never found anything to equal the 'Favorite Prescription' for diseases of women."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

FRIDAY, DECEMBER 30, 1904.

SEYMOUR is the best place in the State for the proposed new Hospital. Let's go after it and get it.

BOOM Seymour. To secure the location of the proposed Epileptic Hospital would give our city a substantial boom.

THE erection of the Epileptic Hospital here would be of incalculable benefit to our city. Talk it up. Go after it.

IF Columbus could impress the legislature favorably what can we do if we try? Get a move on and capture the location of the proposed Hospital.

A PUBLIC meeting will be held Monday night to consider locating the State's New Epileptic Hospital here. Every live business man is interested in the movement and should attend this meeting.

PROPHETS in the Democratic party are just now at a discount. Nobody knows just what that political organization is going to do, but there is one thing that may be set down as a safe prediction. Whatever it is to be it will be a blunder.

MISSOURI still lacks a good deal of having been born again. It is time that many of the Democrats in that region are under conviction, and still others are on the anxious seat, but the returns show that many of them remained at home instead of showing their faith by their works on election days.

FRANK OBENCHAIN, the defaulting treasurer of Cass county, was a "good fellow." Every man ought to be a good fellow in a proper sense. But the fellow who is "good" with public funds is bound to get into trouble sooner or later, and then the very people who have helped him along in his career of "goodness" are apt to set their faces against him and denounce the erstwhile "good fellow" as a very bad fellow. When the "good fellow" in politics is possessed of good sense and judgment he will lay aside the "good fellow" racket when elected to an office of trust and become a man of business. The people of Cass county will probably not be swayed much by the "good fellow" argument when the time comes to elect another county treasurer—Indianapolis Independent.

### Show People Arrested.

Friday morning the whole company playing "Ten Nights in a Bar Room" were put under arrest at Crothersville and caused to go before a justice. The town marshal was under the impression that the license that the town requires every show troupe to pay had not been paid. Therefore he gets out a warrant and just when the train that the show people were to take was pulling in he demands two dollars of the manager. Being refused he arrests the whole bunch. It developed in the squire's court that the license fee had been paid by the owner of the opera house and the marshal had all his trouble for nothing. No. 19 stopped and brought the troupe on to this city and they went on to Brownstown.

### Driven to Desperation.

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in burns, cuts, wounds, ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c at W. F. Peter Drug Co.

## NOTICE TO THE PUBLIC

Mr. Harsch can be consulted at his Seymour office every day in the week, excepting Thursday and Friday for the present. Mrs. Harsch is also constantly in attendance ready to serve you.

Future arrangements for Mr. Harsch will appear in this space.

Mr. and Mrs. Harsch, Eye Sight Specialists.

## MURDER MYSTERIES

Gotham Police Confronted by Two Strange Cases of Like Nature.

New York, Dec. 30.—The two young women who met tragic deaths in this city in a manner strikingly similar have been identified. The girl who was found unconscious in Riverside drive and who died without regaining consciousness, was recognized last night by John F. Mangano as his sister, Mary Mangano, who had been employed here as a domestic. She left home Christmas morning to attend church, and her family was unable to trace her whereabouts until the brother identified the body in the morgue as that of his sister.

The other woman, who was discovered dead in a Delancy street basement, was recognized as Mrs. Cecilia Butler, the widow of a railroad employee who died two weeks ago.

The identification does not, however, clear up the mysteries attending the deaths of the women, both of whom died as the result of broken necks. The theory of murder is being investigated by the police.

### Japs Got the Beef.

St. Louis City, Mo., Dec. 30.—The last of a shipment of a million pounds of barreled beef has been sent from the Cudahy Packing company here to the besieged Russians at Port Arthur. All four of the Cudahy plants have been working overtime to fill this rush order. The problem of getting the meat to the besieged army is left to the Russians to solve. The last shipment of a million pounds was captured by a Japanese mosquito fleet just as it was rounding an island off Japan and was delivered to the besiegers instead of the besieged.

## WRONG POST-MORTEM

Why So Many Remnants Become Merely Remains

From "Old Guyon Graham: More Letters From a Self-Made Merchant to His Son," by George Horace Lorimer. By permission of Doubleday, Page & Co., Publishers.

Health is like an inheritance; you can spend the interest in work and play, but you mustn't break into the principal. Once you do and it's only a matter of time before you've got to place the remnants in the hands of a doctor as receiver, and receivers are highly partial to fees and mighty slow to let go. But if you don't work with him to get the business back on a sound basis there's no such thing as any further voluntary proceedings, and the remnants become remains.

It's a mighty simple thing, though, to keep in good condition, because about everything that makes for poor health has to get into you right under your nose. Yet a fellow'll load up with pie and buckwheats for breakfast and go around wondering about his stomach ache as if it were a put up job that had been played on him when he wasn't looking; or he'll go through his dinner picking each course in a different brand of alcohol and sob out on the butler's shoulder that the booze isn't as pure as it used to be when he was a boy; or he'll come home at midnight singing "The Old Oaken Bucket" and act generally as if all the water in the world were in the well on the old homestead and the mortgage on that had been foreclosed; or from 8 p. m. to 3 a. m. he'll sit in a small game with a large cigar, breathing a blend of light blue cigarette smoke and dark blue cuss words, and next day, when his heart beats four and skips two and he has that queer hopping sensation in the knees, he'll complain bitterly to the other clerks that this confining office work is killing him.

I might add that I don't like the effects of drinking any more than the after effects, and for this reason you should never hire men who drink during business hours. When a fellow loads up on whisky he's apt to see too many figures, and when he subtracts on beer he's apt to see too few.

Of course, with all the care in the world, a fellow's likely to catch things, but there's no sense in sending out invitations to a lot of miscellaneous microbes and pretending when they call that it's a surprise party. Bad health hates a man who is friendly with its enemies—hard work, plain food and pure air. More men die from worry than from overwork; more stuff themselves to death than die of starvation; more break their necks falling down the cellar stairs than climbing mountains. If the human animal reposed less confidence in his stomach and more in his legs the streets would be full of healthy men walking down to business. Remember that a man always rides to his grave; he never walks there.

### Crew Got Off Sorely.

Baltimore, Dec. 30.—A stranded vessel on Diamond Shoals, N. C., proves to be the American steamer North western, bound from Port Arthur, Tex., to Philadelphia with a cargo of crude oil. The crew of twenty-two men were all saved in surf-boats by life-savers. The vessel is thought to be a total loss.

## POURS DRUGS INTO LUNGS.

Novel Consumption Treatment Originated by German Doctor.

Richard Guenther, United States consul general at Frankfurt, Germany, in a report to the state department, says: Professor Jacob, first physician of the Hospital Charite of Berlin, lectured a few days ago before the Berlin Society of Internal Medicine on a new mode of treatment of consumption of the lungs originated by him.

Professor Jacob started with the presumption that the remedies usually employed do not reach the location of the disease at all, and he therefore conceived the idea of introducing medicines directly into the lungs. Through numerous experiments on animals he became convinced that such injections are very well borne by animals. The manipulation is very simple and can be undertaken by every physician who is familiar with the use of the throat mirror (Kehlkopfspiegel). After the trachea and larynx have been made insensible by cocaine or anesthetic, a thin rubber tube is introduced into the lungs, and the medicine is injected through it. The whole process lasts hardly ten minutes.

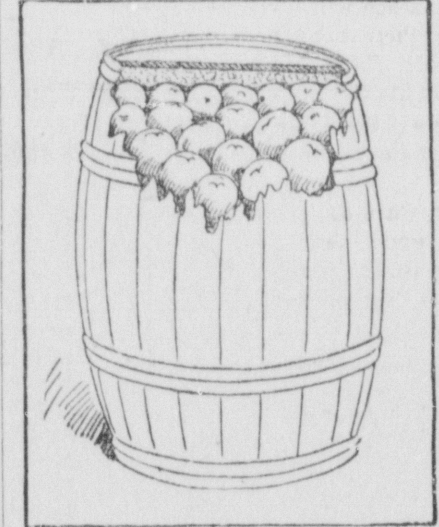

Professor Jacob has found that the most efficient remedy is the well known tuberculin which Professor Koch used thirteen years ago; next in efficiency is crocetin. He succeeded in this way in making the tuberculosis bacilli disappear completely in from four to eight weeks. So far he has treated only five patients by this method, though he expects its general adoption. He added that through this new method a safe diagnosis can be made of consumption of the lungs, while this has so far not been possible. Heretofore tuberculin was injected hypodermically to demonstrate whether a person suffered from tuberculosis; yet if the reaction was positive, nothing was known about the seat of the tuberculosis. Now only his new method of "lung infusion," as he calls it, needs to be employed to determine whether tuberculosis of the lungs exists. It is reported that the lecture was received with great applause.

### FOR THE APPLE GROWER.

Pad In Barrel Keeps Fruit From Being Bruised.

In the packing of fruit, particularly apples, after the barrel has been filled it is necessary to put the contents under pressure, so that the fruit shall be tightly packed in order to put the head on the barrel. This operation frequently results disastrously to the fruit, although if it is done carefully the pressure exerted is not sufficient to do any damage.

The idea of placing a pad in the fruit barrel to protect the contents has been lately conceived, and the advantages are so great that the idea has already

PAD ON TOP OF FRUIT.

found great favor with the growers and dealers, so that it is extremely probable should you buy a barrel of apples any time in the future you will in all likelihood find a large disk of padding occupying a front place among the fruit.

This is done for the sake of saving the apples and not for the purpose of taking the place of fruit, as one might imagine at first conclusions. The improved quality of the fruit is said to more than make amends for the slight decrease in quantity, and the lasting qualities of the apples are greatly prolonged.

### Uses For Sawdust and Shabs.

Nothing about a sawmill goes to waste these days, and the economic features are being constantly emphasized. Ten years ago the sawmill owners would pile their sawdust until they had a large heap, and then they would burn it, getting no return whatever. The most of them now have Dutch ovens for drying the dust, and they burn it in their engines, making the refuse pay for the operation. Still others have established paper mills and use the sawdust for making paper. In the olden days great logs were taken and squared, and the shabs were thrown away. Now a very thin slice is taken off. Then a board is saved and edged, and in that way hardly a perceptible fraction is lost with the bark, and even the bark has its uses.

### New Railway Track Layer.

A railway track layer, with a crew of forty men, will lay two miles of track a day. The track layer has a huge crane sixty feet long which projects forward over the road and hauls behind it a train of sixteen flat cars loaded with ties and rails. A continuous double line of cars moves constantly over rollers and carries the ties with it. Both rails and ties are seized at the proper time by the machinery and placed on the road in front of the train, where they shortly form part of the track over which it passes. This device is said to be the most expeditious as well as economical track layer in the world.

## The Drumzler Abandoned.

New York, Dec. 30.—The steamer Drumzler was entirely abandoned by her captain and crew yesterday afternoon. Soon after fifteen men had been taken off by the Sandy Hook life savers, the remaining members of the Drumzler's company including Captain Nicholson, were rescued from the steamer by the life-saving crew of Oak Island. This accounts for all the members of the Drumzler's company. There was four feet of water in the Drumzler's hold, her engines and boilers were loosened and her bulwarks and bulkheads were stove in.

## January Magazines.

REVIEW OF REVIEWS.

The Review of Reviews for January,  
1905, contains several features of ex-  
ceptional interest. Dr. E. J. Dillon,  
the well-known British journalist in a  
paper written from St. Petersburg,  
presents a graphic and searching  
analysis of the liberal progress in  
Russia. There is a series of three  
strong articles on Pittsburgh as a new  
American great city. The outlook for  
American labor in the coming year, is  
given by Dr. Walter E. Weyl. There  
is a helpful informing article on trans-  
literation from Russian under the  
title "English Spelling of Russian  
Words." In this number there are  
also reproduced a number of Russian  
and Japanese popular war pictures,  
with explanatory text. Then there  
are the regular departments. This is  
a special fiction review number of the  
magazine.

LIPPINCOTT'S.

Lippincott's Magazine sends New  
Year's greetings to its readers through  
pages filled with liveliness and cheer.  
The novelette by Julia Magruder  
has stamp of distinct originality. Its  
title, "The Thousandth Woman," well  
describes a wife, Hester Denison, who  
holds herself perfectly in hand and  
meets the situation in a novel way  
when her husband tells her simply and  
plainly that the affection which he has  
given her for the past ten years has  
evaporated.

Rex E. Beach writes the breeziest  
sort of Western tales. "The Way of  
Love," by Paul Laurence Dunbar, is  
a sweet episode of love in an Ohio  
village. Seumas MacManus tells a  
humorous story of "The Cronanraigh  
Ghost." "Lide Ann Potter's Wed-  
ding" is by Grace McElroy Iurs, an  
unusual tale of a girl who arranges  
to be married in the cemetery to sat-  
isfy her invalid sister's love of ro-  
mance.

SUCCESS.

In the leading article of Success  
Magazine for January, Hosmer Whit-  
field, who went to Manchuria last  
spring as the special commissioner of  
that magazine, to study the war between  
Japan and Russia, has convincingly  
set forth his reasons "Why Japan  
Must win." Mr. Whitfield's article  
was written after a careful survey of  
the situation and from facts supplied  
in interviews with such men as Mar-  
quis Ito, General Kuroki, Baron  
Kaneko, and officers of the Russian  
army, whose names are withheld for  
obvious reasons.

McCLURE'S.

Read McClure's for January!  
There's one New Year's resolution  
that will prove a pleasure as well as  
a profit. For, besides the manifold en-  
tertainment in nine stories, it contains  
articles timely and pleasing, two of  
which are unique and helpful contribu-  
tions to two of the most vital problems  
that American citizens will have to  
face in 1905. "Lynching in the South,"  
by Ray Stannard Baker, will do more  
than many an act in Congress to break  
down the barriers of sectional mis-  
understanding on the negro problem.  
McClure's is always good but you  
have never seen a better number than  
this one.

## Project Not Dead.

A meeting of the directors of the  
Columbus, Greensburg & Richmond  
Traction company will be held at In-  
dianapolis Tuesday, January 10, at  
which steps will be taken toward be-  
ginning the work of construction.  
Little has been heard of the project  
during the past few weeks and many  
supposed it had gone the way of a  
dozen other traction line projects. The  
stockholders, however, give assurance  
that they have the utmost faith in the  
success of the road.—Richmond Star.

This is the road that made some  
movement towards building from Co-  
lumbus through Axalia to Seymour.

## Run Over.

Friday morning Milton Oliver was  
run over by a wagon at Christ Nobbe's  
farm, southeast of this city. He was  
at the side of the wagon and was driv-  
ing out of the barn. The horses started  
to run and he fell before the wheels,  
which passed over his breast. He was  
quite badly bruised but no serious re-  
sults are anticipated. Dr. Hill was  
called to attend him. The horses ran  
out in the field but did no particular  
damage to themselves or the wagon.

## Eagle's Ball.

The Seymour Eagles gave a ball at  
Society Hall last night which was quite  
a success and was largely attended,  
there being quite a number present  
from nearby towns and cities. The  
music was furnished by Schnurr's  
orchestra, of Columbus. The dancing  
continued until a late hour.

## Worst of All Experiences.

Can anything be worse than to feel  
that every minute will be your last?  
Such was the experience of Mrs. S. H.  
Newson, Decatur, Ala. "For three  
years" she writes, "I endured insur-  
erable pain from indigestion, stomach  
and bowel trouble. Death seemed in-  
evitable when doctors and all remedies  
failed. At length I was induced to try  
Electric Bitters and the result was mir-  
aculous. I improved at once and now  
I'm completely recovered. For liver,  
kidney, stomach and bowel troubles  
Electric Bitters is the only medicine.

## B. & O. CONDUCTOR

Blown From His Train And Probably  
Fatally Hurt.

J. L. Tibbs, the well known conduc-  
tor on the B. & O. S. W. road was  
blown from his train in the gale of  
Tuesday and received injuries which  
will likely result in his death. He was  
on his regular run between Flora and  
Shawneetown when the accident hap-  
pened.

He was walking across the train when  
the high wind swept him off. The train  
was brought to a standstill, and Con-  
ductor Tibbs was picked up and taken  
to Flora, where he received medical at-  
tention by Dr. T. H. Maxedon, the B.  
& O. S. W. railroad physician at Vin-  
centes who was summoned. The  
physician had to resort to trephining  
in order to save Tibbs from immediate  
death, and the injuries may yet prove  
fatal.

Mr. Tibbs is one of the best conduc-  
tors on the road and has, for several  
years been running out of Flora on  
the Springfield division.—Washington  
Gazette.

## Deafness Cannot be Cured

by local applications, as they cannot  
reach the diseased portion of the ear.  
There is only one way to cure deafness  
and that is by constitutional remedies.  
Deafness is caused by an inflamed  
condition of the mucous lining of the  
Eustachian tube. When this tube is  
inflamed you have a rumbling sound  
or imperfect hearing, and when it is  
entirely closed, deafness is the result,  
and unless the inflammation can be  
taken out and this tube restored to its  
normal condition, hearing will be re-  
stored forever; nine cases out of ten  
are caused by catarrh, which is nothing  
but an inflamed condition of the  
mucous surfaces.

We will give One Hundred Dollars  
for any case of deafness (caused by  
catarrh) that cannot be cured by Hall's  
Catarrh Cure. Send for circulars free.

## Of Public Interest.

We are authorized to announce that  
Mr. and Mrs. Harsch will continue to  
make this city their home for some  
time to come. Mr. Harsch will divide  
the time between his Seymour and In-  
dianapolis offices. Spending the first  
three days of each week in this vicinity.

Brings bright, shining, merry eyes,  
rich, red blood, good health. That's  
what Hollister's Rocky Mountain Tea  
will do. 35 cents, Tea or Tablets. W.

## Happy Thought!

The Holiday perfume  
package is a happy  
thought. It settles at once  
the perplexing question:  
"What shall I get for  
Christmas gifts?" Each  
year perfume gifts increase  
in popularity. We have a  
window full of happy  
thoughts for the coming "oliday  
season. They are all new and  
artistic. See them today, and  
make selections early. We have  
a new line of bulk orders, the lat-  
est creation of the perfumer's art.  
It will pay you to examine them  
this week.

## We're Sorry That It's So But It's No Fault of Ours.

Coal is hard to get these days. In fact it's a  
scarce article. Owing to cold weather the sup-  
ply may give out any day.

## Take Advantage of This Opportunity.

We've got some Jackson Hill Domestic Nut,  
Pittsburg and "Lincoln" Youghhegheny lump  
left. But they will not last long.

## Get Your Orders in Quickly or You May Be Too Late.

## Neglect It and Then Regret It!

You now have your babies and other small children,  
but have no picture of them. Winter is coming on with  
the danger of colds, croup and other diseases of  
children. You may take them through the winter and  
may not. Should you lose one or more and have no  
picture of them? you would then regret your neglect.  
Bring your little ones and big ones also to us right by  
the post office and get photos. If you can not get high  
priced get cheap ones, but get Photographs of some kind.  
We seldom fail with babies.
